

Job Description

SAP BI Maintenance Professional:

You will become part of our SAP BI maintenance team. This team is responsible for monitoring and maintaining the live status of global SAP BI systems employed by our clients. You will monitor existing dataloads from several international systems, troubleshoot problems and keep systems up-and-running. Next to this you assist the client in enhancing this system, both with advice and hands-on work.

You will start as a junior team member. Through classroom training and hands-on experience you will increase your knowledge of the system and grow to become an experienced team member that is able to operate independently. You will interface with the client to discuss problems and solutions, and work directly with the client IT team both on- and offshore.

After knowledge has been build up to a sufficient level the possibility exists to leave the maintenance team and join the Taurus-i consulting organization. Allowing you to work on project work at several international clients in both the SAP as the Business Objects fields.

About you

You are young and dynamic, interested in both technology and business processes. You are eager to learn and willing to work flexibly. Experience in SAP is not required, you will receive training.

About us

Taurus-i is a "no-nonsense" consulting company, focusing on high quality solutions in the area of SAP Business Intelligence suite. Our consultants work in close collaboration with the client in order to offer a comprehensive end-to-end solution that works! The successes that our customers experience with our projects prove that we are on the right track...

Taurus-i is an exciting place to work. We are expanding rapidly, and we have interesting positions to offer in consultancy and competency centers. As a result, we will be needing more top notch professionals: men and women who excel in their expertise, who aim high and who are willing to give their best. We offer a great atmosphere, competitive employee benefits: including excellent pay, education plans, career development, and much more.
